

# TPM Meeting for

in Bangkok

# 'Production activities' and 'Human resources development'

2018

Due to the popularity of the event held last year in Bangkok, Thailand, the event will be held again year.

At the Day-2 TPM lecture, President Yamaguchi from Denso (Thailand) will be giving the keynote speech as a representative of Japanese corporations in Thailand that are committed to global expansion. Also, the lectures provided by the two TPM Award winning companies will not only consist of announcements of valuable corporate cases, but due to the participation of coordinators, will also help draw out ideas for the deployment of TPM activities. In addition, the certificate ceremony for the Monodzukuri Test and announcements of corporate cases will also be made.

A factory tour (limited to registered Day-2 participants) will be held On Day-1 and Day-3. On Day-1, we will be providing a tour of Siam Toyota Manufacturing Co., Ltd., which gave the keynote speech last year and received a positive response, and on Day-3 we will be providing a tour of Denso Thailand Co., Ltd. (Bangpakong Factory), the company that will be giving the keynote speech this year.

Both the lectures and company tours will be limited opportunities overseas, so we hope that you will participate in them and introduce them to people in the local bases.
